Notes on .eu Application Form (Other Rights Holders)

Some or all of the registrant information may be made available on a public whois server, so individuals may wish to consider creating a unique email address for the purposes of registration.

- Domain Name:** May consist of 2-63 alphanumeric characters and hyphens. Most two letter domains are not allowed due to conflicts with ISO country codes.
- Registrant Details:** This must be the details of the actual registrant, not the agent. If the registrant is a natural person, leave the organization field blank. The first line of the street address, the city/town, the postcode/county, country and phone number are all mandatory.
- Email Address:** It is vital that this email address be accurate and functional as this is the main way the registry will contact you regarding your domain. Your agent may specify an additional address to receive information about the progress of application, and where to send supporting documentation.
- Prior Right:** The Prior right name is the **exact** name that you can demonstrate a legally protected right to. This will often be a Company Name, or the Name under which the applicant normally trades but it is possible that you may have established rights to other names also (such as unregistered trademarks etc). Please note that having a Registered Company Name or Business Name or applied for a trademark is not of itself sufficient to obtain a .eu domain name but it may aid in establishing rights. *We recommend that you seek appropriate legal or professional advice in this regard.*
- Name Servers:** If you know the name servers that you will use for the domain if your application is successful then enter them here, otherwise leave blank and we will supply name servers that may be used until you make other arrangements.
- Application Fee:** The application fee of € 129 + VAT covers all processing costs and your first years domain registration fee if your application is successful. Successfully registered domains may be renewed on an annual basis for € 29 + VAT or the rate prevailing at the time. The application fee is not refundable once the application is received by EURid irrespective of whether or not the application succeeds, however if you fail to register your domain, a credit will be applied allowing you to register another .eu name during open registration.
- Invoice/Agent Detail:** Unless arranged in advance, the application fee including VAT must accompany all applications, however a VAT invoice will be issued to either the registrant or their agent as required (specify agent invoicing details if required). The agent may supply an email address to receive information regarding supporting documentation instead of the applicant in which case they assume responsibility for its timely submission.
- Documentation:** Supporting documentation is not required at the time of application but must be submitted within 40 days of EURid receiving the application. Documentation *should not* be sent to Irish Domains Ltd. A cover sheet for the documentation will be provided in the acknowledgement email from Eurid, this will contain the address to send it to. It is the sole responsibility of the registrant to ensure that the supporting documentation (including affidavit if required) is correctly formatted according to the sunrise rules, is valid, and is received on time.
- Terms & conditions:** The registration is subject to the .eu rules (including Sunrise rules and applicable dispute resolution procedures) as set by EURid. These may be viewed online at www.eurid.eu. The registration is also subject to Irish Domains standard terms and conditions as may be viewed online at www.irishdomains.com.

It is a condition of registration that the registrant (and agent) agrees to defend, indemnify and hold harmless Irish Domains Ltd and its servants or agents, against any loss, damage, liability, claim or expense resulting from a claim or claims asserted by a third party regarding ownership of or right to use the domain name in question. It is also a condition of registration that no liability shall attach to Irish Domains Limited or its servants or agents in respect of any loss or damage whatsoever suffered by the applicant or any third party arising from any action or neglect on the part of Irish Domains Limited or its servants or agents in the exercise of registering or maintaining domain names or in the provision of any other service. This document is intended for guidance only, it is not guaranteed accurate or complete. For full information please visit the EURid website (www.eurid.eu) or the validation agents website (validation.pwc.be).
